THE POWER OF NATURE!

GUIDEBOOK HOKAMIX30

Success in the second generation
Jan Kroske and Gerti Grau

TRADITIONALLY GOOD

Healthy nutrition, Healthier life - this has been our company motto for over 35 years. The well-being of your four-legged friend is the focus of our business.

Our values; honesty, customer satisfaction, and reliability are our highest priorities as a family owned business. However, all this would be nothing without your long-standing trust and support. Therefore, we would like to thank you!

HOKAMIX30

WHAT IS HOKAMIX30 CLASSIC?

HOKAMIX30 Classic combines the natural ingredients of 30 valuable plants and herbs. **HOKAMIX30 Classic** contains vitamins, minerals and trace elements necessary for the body.

Many years of experience and reports from satisfied dog owners show the success of this unique mixture. The herbs and plants are 100% natural and processed very carefully. We also deliberately avoid chemical additives such as preservatives, colouring, or flavouring.

- > **gluten-free**
- > **without preservatives**
- > **without chemical additives**
- > **natural herbs and plants**

THE HERBAL MIXTURE ...

- > provides a dense, shiny coat
- > helps with itching
- > removes bald spots and dandruff
- > shortens the hair change
- > reduces problems in the musculoskeletal system
- > supports the supply of connective tissue
- > maintains joy of movement and vitality
- > supports growth
- > can optimize the metabolism

WHAT DOES HOKAMIX30 CLASSIC DO?

Every ingredient in this special blend specifically addresses certain nutritional processes in the dog's body. The digestion and metabolism of the dog is promoted, skin and coat are optimally supplied, and problems in the musculoskeletal system are given special attention.

The herbs and plant substances serve to ensure requirements of the dog. The natural substances contained in **HOKAMIX30 Classic** are therefore able to balance nutritional imbalances.

Wolves would similarly support themselves in nature through the targeted intake of plant substances.

HOKAMIX30 CLASSIC SUPPORTS THE FOLLOWING HEALTH AREAS:

SKIN & COAT

JOINTS

DIGESTION

HOW DO YOU FEED HOKAMIX30 CLASSIC?

We should recommend that dogs of at least all ages should be given **HOKAMIX30 Classic**. You give it for eight weeks, ideally at the same time as the coat is moulting. You will soon notice positive results if feeding for at least eight weeks. Some dogs do better if they get it constantly throughout life, instead of a cure.

Every dog should get fed **HOKAMIX30 Classic** regularly in their life, from puppies to seniors. Puppies can be fed **HOKAMIX30 Classic** after three weeks of age.

It helps to keep the dog healthy and gives the owner the assurance that everything is done for the well-being of the dog.

This supplementary feed can also be useful if an animal receives a complete nutritional package. Even high-quality raw materials unquestionably lose their properties as a result of heating, processing and high pressure, which is applied during the production of croquettes or wet food. This means that vitamins are destroyed, amino acids from protein sources are denatured or essential fatty acids become unstable.

So in order to create the foundation for a long, active life, you can protect and support your pet effectively with **HOKAMIX30 Classic**.

The feeding costs for a medium-sized dog around 20 kg, are usually **less than one euro per day!**

HOKAMIX30 CLASSIC POWDER

A natural nutritional supplement to support:

- > skin and coat
- > vitality and resistance
- > supplementation of vitamins, minerals and trace elements.
- > highly effective
- > lowest daily feeding costs

DOSAGE AS A BASE QUANTITY (per day per animal):

dogs up to	15 kg	1 g per day per kg of body weight
dogs from	15 to 40 kg	15g per day
dogs above	40 kg	20 to 25g per day

Puppies starting after independent food intake. Simply mix the recommended amount with the feed using the measuring spoon provided.

HOKAMIX30 CLASSIC TABLETS

A natural nutritional supplement to support:

- > skin and coat
- > vitality and the immune system
- > supplementation of vitamins, minerals and trace elements

Puppies from three weeks and adult dogs:

dogs from	1 to 5 kg	2 pieces
dogs from	6 to 10 kg	4 pieces
dogs from	11 to 15 kg	6 pieces
dogs from	16 to 40 kg	8 pieces
dogs above	40 kg	12 pieces

JOINTS

SMOOTHLY THROUGH LIFE

HOKAMIX30 Mobility is a further development of the original **HOKAMIX30 Classic** powder, designed especially for dogs with movement and joint problems and to support the growth of large breeds.

The 30 ingredients were additionally mixed with natural marine substances known to support cartilage, tendons and ligaments. Mucopolysaccharides contribute to the elasticity of the tissues and, as natural components of connective tissue, synovial fluid and cartilage, support their regeneration. These include glycosaminoglycans from the Green-lipped New Zealand mussel in the purest quality and in an enormously high concentration. It supplies the joints with the nutrients required to build up the cartilage mass, as well as chondroitin sulphate that regulates the water content of the joint cartilage, this positively influences its elasticity.

USAGE:

A clear improvement can usually be seen after supplementary feeding for six to eight weeks thanks to the nutrients and active substances contained.

HOKAMIX30 MOBILITY POWDER

We recommend that dogs with problems in the musculoskeletal system use **HOKAMIX30 Mobility** twice a year as a temporary measure. However, continuous supplementary feeding is often advisable and yields the best results.

DOSAGE AS A BASE QUANTITY (per day per animal):

dogs up to	15 kg	1 g per kg of body weight
dogs from	15 to 40 kg	15g per kg of body weight
dogs above	40 kg	20 to 25g per kg of body weight

Puppies starting after independent food intake. Simply mix the recommended amount with the feed using the measuring spoon provided.

HOKAMIX30 MOBILITY TABLETS

HOKAMIX30 Mobility is a natural food supplement based on the original **HOKAMIX30 Classic** formula with added joint-specific components, such as Glucosamine, to support:

- > joints
- > ligaments
- > tendons

DOSAGE AS A BASE QUANTITY (per day per animal):

Puppies: for information please contact us. Adult dogs:

dogs from	1 to 5 kg	2 tablets
dogs from	6 to 10 kg	4 tablets
dogs from	11 to 15 kg	6 tablets
dogs from	16 to 40 kg	8 tablets
dogs above	40 kg	10 tablets

COAT

HOKAMIX30 DERMA

FOR (STUBBORN) COAT PROBLEMS

The effectiveness of the 30 ingredients of **HOKAMIX30 Classic** has been greatly improved by adding freshwater alga chlorella and Milk thistle. This new blend is called **HOKAMIX30 Derma**.

CHLORELLA HAS THREE IMPORTANT PROPERTIES:

- 1: It contains a natural growth factor (Chlorella Growth Factor (C.F.G.)) that supports cell division (and therefore the growth of new skin tissue).
- 2: It absorbs heavy metals and is therefore very important for detoxifying the body.
- 3: It contains essential amino acids, important vitamins and minerals.

Milk thistle has a positive influence on the liver and supports its function as a detoxification organ.

USAGE:

We recommend that you start feeding **HOKAMIX30 Derma** temporarily for six to eight weeks against stubborn and protracted problems such as very dry skin, severe dandruff, bald spots or an overall poor skin complexion. If successful, continue to feed the **HOKAMIX30 Classic** on an ongoing basis.

TELL US ABOUT IT!

We are always pleased to receive success stories about our products from customers. Send us your experiences – preferably with a photo to **export@grau-gmbh.de**

HOKAMIX30 DERMA POWDER

For intensive skin and coat support, we recommend combining **HOKAMIX30 Derma** with **HOKAMIX Skin & Shine**.

DOSAGE AS A BASE QUANTITY (per day per animal):

dogs up to	15 kg	1 g per kg of body weight
dogs from	1 to 15 kg	1 to 15 g per kg of body weight
dogs from	15 to 40 kg	15 g per kg of body weight
dogs above	40 kg	25 g per kg of body weight

Puppies starting after independent food intake. Simply mix the recommended amount with the feed using the measuring spoon provided.

OIL - BEAUTY COMES FROM WITHIN

HOKAMIX Skin & Shine is exclusively made from cold-pressed nut oils. It contains a high concentration of essential fatty acids from the omega-3-6-7 and -9 group. It is not only the high concentration of these unsaturated fatty acids which is important, but also their ratio to each other. The effectiveness is optimised by omega-7 and omega-9 fatty acids, which are also beneficial to health.

The scientifically proven optimal ratio is achieved in **HOKAMIX Skin & Shine** by careful mixing of the various nut oils and constant quality controls.

As necessary building blocks of a healthy organism and intact tissues such as skin and hair, the essential fatty acids from **HOKAMIX Skin & Shine** have a direct, positive influence on

- > very dry skin
- > skin aging symptoms
- > dull fur
- > bald spots and dandruff
- > too thin coat
- > constant itching
- > "hair breakage"

These problem areas are positively influenced by the high bioavailability of fatty acids contained after only a few days, meaning that the positive effects on skin and coat can be seen and felt very quickly. The fat-soluble vitamins A, D3 and E also have a positive impact on the hair structure and the complexion of the skin.

HOKAMIX SKIN & SHINE

- > for long-haired dogs
- > for rapid aid (4 to 5 days)
- > for severe changes such as bald spots, severe irritated skin
- > for very dry skin
- > additionally valuable omega-7 and omega-9 fatty acids
- > 5 to 10 omega-6 fatty acids : 1 omega-3 fatty acids

DOSAGE:

small dogs	1.5 ml per day
medium dogs	6 ml per day
large dogs	9 ml per day

Mix **HOKAMIX Skin & Shine** with the feed (1 pump stroke corresponds to approx. 1.5 ml).

HOKAMIX30 CLASSIC POWDER

Composition:

various plants, plant derivatives and by-products

Analytical constituents:

crude protein 10.1%, crude fat 7.1%, crude fibre 13.8%, crude ash 45.2%, moisture 5.8%

HOKAMIX30 CLASSIC TABLETTEN

Composition:

various plants, plant derivatives and by-products

Analytical constituents:

crude protein 9.0%, crude fat 12.0%, crude fibre 5.0%, crude ash 47.0%, moisture 5.0%

HOKAMIX30 MOBILITY POWDER

Composition:

various plants, plant derivatives and by-products, Devil's claw (3%), mussel powder extract (glucosamine (4%), chondroitin sulphate (4%), mucopolysaccharides (2%))

Analytical constituents:

crude protein 12.0%, crude fat 10.7%, crude fibre 8.5%, crude ash 49.9%, moisture 4.3%

HOKAMIX30 MOBILITY TABLETTEN

Composition:

various plants, plant derivatives and by-products, Devil's claw (3%), mussel powder extract (glucosamine (4%), chondroitin sulphate (4%), mucopolysaccharides (2%))

Analytical constituents:

crude protein 16.2%, crude fat 1.4%, crude fibre 3.4%, crude ash 27.3%, moisture 5.7%

HOKAMIX30 SNACK MAXI / SNACK PETIT

Composition:

various plants, plant derivatives and by-products, meat and animal by-products (chicken meat 15%)

Analytical constituents:

crude protein 22.5%, crude fat 7.3%, crude fibre 7.0%, crude ash 5.4%, moisture 9.8%

HOKAMIX30 BONIES

Composition:

grains (corn and wheat), various plants, plant derivatives and by-products, oils and fats

Analytical constituents:

crude protein 11.5%, crude fat 2.0%, crude fibre 1.0%, crude ash 11.0%, moisture 16.0%

HOKAMIX30 DERMA POWDER

Composition:

various plants, plant derivatives and by-products, freshwater algae (Chlorella 6%), milk thistle (6%)

Analytical constituents:

crude protein 12.9%, crude fat 12.2%, crude fibre 8.6%, crude ash 46.1%, moisture 3.8%

HOKAMIX SKIN & SHINE

Composition:

oils and fats (nut oil)

Analytical constituents:

crude fat 97.0 %, omega-3 5.8%, omega-6 35%, omega-7 <0.1%, omega-9 29.2%
