The background is a marbled pattern in shades of blue, teal, and purple. On the left side, there are illustrations of green and purple coral. On the right side, there are blue seaweed-like structures with small white spheres. The text is centered in the upper half of the image.

Health & Beauty

THE DIET IS DEVELOPED USING
A HOLISTIC APPROACH FOR
WELL-BEING, HARMONIOUS LIFE
AND NATURAL BEAUTY OF YOUR PET

MARINE SUPER FOOD COCKTAIL

SALMON

AN OIL-RICH SEA FISH, salmon is a source of easily-digestible, hypoallergenic protein. Salmon is also rich in amino acids, which help contribute to the formation of muscle tissue. As a natural source of essential omega-3 fatty acids (including DHA and EPA), salmon helps maintain skin and hair beauty. Salmon is also a natural source of collagen.

WHOLE SHRIMPS

SHRIMPS ARE A NATURAL SOURCE OF VITAMINS AND MINERALS, including B12, niacin, choline, phosphorus, copper, iodine, and antioxidants that help maintain metabolic processes in the body. They contain chitin, a source of chitosan, which is a powerful absorbing agent that helps remove toxins from the body.

WHOLE MUSSELS

MUSSELS ARE A NATURAL SOURCE OF GLUCOSAMINE AND CHONDROITIN which support joint health. Mussels also contain vitamin E, a natural antioxidant.

HERRING

AN OIL-RICH SEA FISH, herring is a source of high-quality protein, essential omega-3 fatty acids (including DHA and EPA) and vitamin D3. It improves skin and hair condition, reduces inflammation and helps maintain the immune system. Herring is also a natural source of collagen.

KRILL

AS A SUPERFOOD RICH IN ESSENTIAL OMEGA-3 FATTY ACIDS (including DHA and EPA), krill helps maintain skin and hair beauty while also contributing to joint health and ligament elasticity. Krill contains one of the most powerful natural antioxidants – astaxanthin, which helps slow the aging processes in the body.

IMMUNITY
SUPPORT

Beauty

RICH IN NATURAL ANTIOXIDANTS

Natural antioxidant complex includes extract of rosemary, aloe vera, and berries (blueberries and cranberries), which help prevent degradation and early aging of cells while help stimulating the body's protective functions and supporting the immune system.

Purified β -1,3/1,6 glucans are natural occurring active compounds, which help to activate the body's immune cells.

β -1,3/1,6 glucans are an effective aid for stimulation of antimicrobial activity, cellular protection and anti-inflammatory response of the body. As it is known, the interaction between β -1,3/1,6 glucans and cell surface receptors help to strengthen the immune system and activate the production of immunoglobulin.

β - glucans increase the natural defense mechanisms of animals at all stages of their lives, as well as help to strengthen the immune system during stress.

PURIFIED β -1,3 / 1,6 GLUCANS

Purified β -1,3/1,6 glucans are naturally occurring active compounds that help activate the body's immune cells and increase the natural defence mechanisms of animals at all stages of their lives, as well as help to strengthen the immune system during times of stress.

MOS (mannan-oligosaccharides) is a prebiotic that binds pathogenic microorganisms and displaces them from the animal body. It prevents colonisation of the intestine by pathogenic microflora. FOS (fructo-oligosaccharides) is a prebiotic fibre that stimulates the growth of useful bacteria in the intestine. It helps to strengthen the protective barrier of the intestine.

PREBIOTICS MOS & FOS

MOS (mannan oligosaccharides) and FOS (fructo-oligosaccharides) support optimal intestinal microflora balance. MOS binds and removes pathogenic bacteria from your pet's body, while FOS encourages the growth of beneficial bacteria in the bowel (bifidus bacteria and lactic bacteria). Prebiotics support both a healthy digestive system and immunity.

Rosemary extract is a powerful natural antioxidant, that helps to slow down inflammation and delay lipid oxidation, helps to neutralize free radicals and increases overall body tone.

Aloe vera has an antioxidants and anti-inflammatory properties, contains vitamins A, E and C, thus helping to protect and regenerate cells.

Blueberries contain natural compounds that have a powerful antioxidant effect and are rich in vitamins A and C.

Cranberries are rich in natural antioxidants and vitamin C.

In general, a complex of natural antioxidants is an effective means of preventing the destruction and premature aging of cells, which helps to stimulate the body's defense mechanisms and maintain a healthy immune system.

Astaxantin (carotenoid) is a naturally
