

I founded Barking with Bianca 5 years ago, and at the start of the journey we just started with Dog walking and Pet sitting serving the local community, as a matter of fact, we still have those very same clients since the very beginning 🤗. We then made the move into doggie daycare which has been a treat , then moved into Dog training which has bought us obedience classes and much more and since then we haven't looked back. Seeing the growth and development of the service grow into an amazing little family 🐾. I could not be more proud of what I have achieved.
