GOLDEN
Choices

pet-earth

ABOUT US

pet-earth was founded more than 18 years ago and specialises in the production of premium cat litter. Production takes place in Germany and the raw materials used in the product range are of natural origin. The **GOLDEN Grey** brand is one of the favourites on the European market and is synonymous with the trust and preference of owners, cat breeders and vets.

THE RIGHT LITTER FOR EVERY NEED

Cats are as individual as their owners. Each has its own characteristics and special preferences. To cater for these, we at **pet-earth** have created a selection of hygiene products that meet every requirement. A brand new addition to our range is the **GOLDEN Nature** line: ecological litter with innovative ingredients that are environmentally friendly, biodegradable and have a low environmental impact.

GOLDEN *Nature* yucca

The combination of yucca and maize starch provides the best odour control in your cat's litter tray. Super-fast clumping guarantees that the well-known soiling of the fur and tail by adhering litter - especially with long-haired cats - does not occur.

The litter has the ideal grain size to minimise the removal of individual particles. Maximum absorbency, dry and hygienic - that is the performance of **GOLDEN Nature yucca**. Clumps can be easily disposed of in the toilet* or compost. Light in weight and ecological in disposal - hygiene has never been so easy.

Cats love **GOLDEN Nature yucca**.

THE ADVANTAGES

- Best odour absorption, hygienically clean
- Super economical: 1 bag + 1 cat = 3 months' supply
- Grain size of 1 - 2.5 mm leaves the litter in the toilet
- No chemical additives, ideal for kittens
- Compostable or can be disposed of in the toilet*
- Environmentally friendly and sustainable

**Strong
clump formation**

**Maximum
odour binding**

**Compostable /
Flushable**

**PROFESSIONAL MAIN COON
BREEDERS ATTEST TO THIS:**
*Best performance, sustainable and
hygienically clean. 100% plant power for
a better environment!*

*After consultation with your regional waste disposal company.

GOLDEN *Nature* wheat

With **GOLDEN Nature wheat**, we have created a cat litter with the best odour absorption. In a patented process, the natural plant fibres from wheat residues become a natural odour killer with maximum absorbency. In this innovative way, we offer cats a dust-free environment. The flexible clumps of **GOLDEN Nature wheat** guarantee the perfect binding of urine. Easy to use and super economical. **GOLDEN Nature wheat** impressively demonstrates how additives such as colouring agents or perfume can be dispensed with in a completely natural and sustainable way. The long service life is easy on your wallet and helps the environment. The faeces can be disposed of in the toilet. **GOLDEN Nature wheat** is 100% compostable.

NEW!

Light weight

100% dust free

Compostable /
Flushable

THE ADVANTAGES

- Natural plant fibres for optimum odour absorption
- Flexible clumping guarantees optimum hygiene in the toilet
- Easy to use thanks to sustainable raw materials
- As dust-free as you want it to be
- Highly accepted by cats
- Easy on the environment and your wallet
- 100% compostable and efficient

TIP FROM SUCCESSFUL BREEDERS:

As with all lightweight litter, tracking may occur in some cases. We recommend a suitable litter mat and a litter tray with access from above.

GOLDEN *Nature* pine

For us, the **pet-earth** team, it was important to offer a sustainable cat litter made from local wood. 100% wood is processed into extremely dust-free litter using sophisticated technology. Wood shavings are pressed into pellets, which are then crushed into the optimum shape: Pleasant for sensitive cat paws and with an efficient surface structure. With no added perfume, it is the perfect solution for all cat owners who love nature as much as we do. **GOLDEN Nature pine** allows cats to fulfil their needs as close to nature as possible. This promotes your pet's psyche and protects the environment.

pet-earth - GOLDEN Nature pine is mine!

THE ADVANTAGES

Economically in consumption

Biodegradable

Compostable / Flushable

- Pleasant on the paws
- Without chemical additives
- Ideal for kittens and allergy sufferers
- Easy to handle and dispose of as it is compostable
- Sustainable and environmentally friendly
- Efficient to use
- Optimum odour absorption with the help of nature
- Made from local woods

SUCCESSFUL BREEDERS RECOMMEND:

It is a very light litter, super gentle on cats' paws. If this leads to light tracking, we recommend a toilet with top entry."
